COLLINS OTIENO

IT TECHNICIAN | IT SUPPORT | WEB DEVELOPER

Kisumu City, Kenya
Phone: 0721290782 | Email: walkercollinsotieno@gmail.com
Portfolio: https://walkercollinsotieno-prog.github.io/collins-portfolio/

01 — PROFESSIONAL PROFILE

Motivated ICT professional with an ICT Level 5 qualification and a strong interest in IT support, computer systems, troubleshooting, and web development. Developing practical skills in software installation, computer configuration, responsive website design, and digital services. Passionate about solving technical problems, learning new technologies, and helping users work confidently with computers and digital tools.

Seeking an ICT attachment, internship, or entry-level IT support opportunity to apply my training, develop practical experience, and contribute to an organization's technology operations.

02 — CORE COMPETENCIES

- Computer Support: Basic troubleshooting, software installation, and system configuration.
- Web Development: HTML5, CSS3, JavaScript fundamentals, and responsive design.
- Technical Assistance: Supporting users with common computer and software issues.
- Digital Productivity: Microsoft Word, document preparation, and file management.
- Networking: Basic Wi-Fi and internet connectivity troubleshooting.
- Problem-Solving: Logical thinking, attention to detail, and systematic diagnosis.

03 — EDUCATION

ICT Certificate — Level 5
Ugunja Technical and Vocational College (Ugunja TVC), Kenya

Kenya Certificate of Secondary Education (KCSE)
Kasagam Secondary School, Kenya
Year completed: 2023

04 — PROFESSIONAL TRAINING

ICT Track and Device Repair Certificate
African Centre for Women, Information and Communications Technology (ACWICT)

Training exposure in ICT fundamentals and device repair concepts, supporting the development of technical troubleshooting and computer support skills.

05 — TECHNICAL SKILLS

Computer and Software Support

- Basic identification and troubleshooting of computer software issues.
- Software installation, application configuration, and computer setup fundamentals.
- File organization, document preparation, and routine user support.

Web Development

- HTML5 — structuring web pages using appropriate HTML elements.
- CSS3 — styling, Flexbox, CSS Grid, and responsive layouts.
- JavaScript — variables, data types, conditions, and basic interactive functionality.
- Website testing, debugging, and continuous improvement.

Digital Productivity

- Microsoft Word and professional document formatting.
- Internet research and navigation of online platforms.
- Basic digital record management and file organization.

Networking Fundamentals

- Basic understanding of internet connectivity and Wi-Fi.
- Familiarity with common connectivity problems and troubleshooting procedures.

06 — SELECTED PROJECTS

Personal Portfolio Website
Technologies: HTML5, CSS3, JavaScript, Visual Studio Code, Git, and GitHub

- Developed a personal portfolio website to showcase technical skills, projects, and professional information.
- Structured website content and navigation using HTML.
- Applied CSS styling, responsive layouts, and visual design principles.
- Used JavaScript to support interactive website features.
- Tested and refined the website to improve usability and presentation.

freeCodeCamp Web Development Projects

Completed practical exercises to strengthen front-end development knowledge, including:

- Café Menu: Practised webpage structure, typography, and CSS styling.
- Penguin: Practised CSS positioning, shapes, and visual presentation.
- Magazine: Practised layout design, typography, and CSS Grid.
- City Skyline: Explored CSS shapes, layering, and responsive styling.
- Ferris Wheel: Practised CSS animation and transforms.
- Photo Gallery: Applied layout techniques and image presentation.
- Accessibility Quiz: Practised semantic HTML and accessibility concepts.

07 — TOOLS AND TECHNOLOGIES

Category	Skills and Tools
Web Development	HTML5, CSS3, JavaScript
Development Environment	Visual Studio Code
Version Control	Git, GitHub
Productivity	Microsoft Word, internet tools
Operating Systems	Windows fundamentals
Additional Technical Learning	MetaTrader 5, MQL5 fundamentals

08 — PRACTICAL LEARNING

Continuously strengthening ICT skills through personal web development projects, guided technical exercises, and practical exploration of computer support workflows. Focused on improving troubleshooting methods, understanding software behaviour, and developing reliable solutions to everyday technology problem

09 — CAREER OBJECTIVE

To secure an ICT attachment, internship, or junior IT support position where I can apply my ICT training, strengthen my practical technical abilities, and contribute to the effective operation of computer systems and digital services.

I aim to develop professionally in computer maintenance, software troubleshooting, networking, help desk operations, and web development while providing dependable technical assistance and maintaining a commitment to continuous learning.

10 — PROFESSIONAL STRENGTHS

- Willingness to Learn: Open to new technologies, procedures, and professional development.
- Problem-Solving: Approaches technical challenges logically and systematically.
- Communication: Values clear communication and helpful user support.
- Attention to Detail: Takes care when handling documents, files, and technical tasks.
- Adaptability: Willing to work independently or collaboratively as required.
- Professional Growth: Committed to improving technical knowledge and practical skills.

11 — AREAS OF INTEREST

- IT support and help desk operations
- Computer maintenance and troubleshooting
- Software installation and configuration
- Basic networking and connectivity support
- Website development and maintenance
- Digital services and user assistance
